West Palm Beach, FL

Our reefs and wrecks range in depths from 30 to 130 feet making diving accessible to divers of all levels, with a large variety of choices. With dive sites only one to three miles from shore, you won't have to worry about long boat rides, as most sites are within fifteen to thirty minutes of the dock.

Due to the current produced by the Gulf Stream, all dives are conducted as drift dives, allowing you to drift effortlessly along miles of reefs without the concern of having to navigate back to the boat.
