

Advanced Diver and Specialty Classes

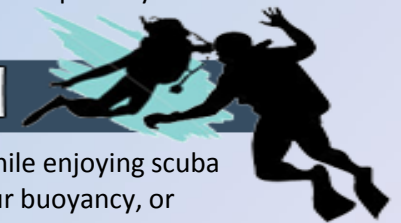

Advanced Adventure Diver

You've taken your open water scuba diver course and now you're ready to expand your knowledge but you would like to see what is out there first. The Advanced Adventure Diver course will give you an overview of five (5) selected specialty dives. Two of the dives will be Deep Diver and Navigation Diver, which are required foundation dives of continuing diver education. The remaining specialty dives may include:

Advanced Buoyancy Control, Boat Diver, Computer Nitrox, Drift Diver, Dry Suit Diver, Marine Ecosystem Awareness, Night Diver, UW Naturalist, and/or Wreck Diver.

Only \$150.00*
see below for details

Each dive may be used towards earning distinctive specialty certifications. (see below) Sign Up for Computer Nitrox Specialty (just **\$69.00**) with Advance class)and earn both; your nitrox specialty in addition to your advanced adventure certification.

Specialty Courses Offered

By taking a specialty class you will learn about different activities that are possible while enjoying scuba diving. Want to know how to dive around wrecks, explore diving at night, control your buoyancy, or more - without going through "trials and errors"? By taking specialty classes with an experienced instructor, you will increase diving skills and comfortability, opening the door to new diving adventures.

Many specialties are earned in as little as 1 to 2 more dives. When you have completed four specialties and logged a minimal number of logged dives you can qualify for higher SDI Advanced Diver rating. Add Rescue Diver and more dives and you qualify for either a PADI or SDI coveted Master Diver rating.

Only \$99.00*/ea.
or \$79.00* if you enroll in 2 or more
see below for details

Choose from : Advanced Buoyancy, Boat Diver, Computer Diver, Computer Nitrox Diver, Deep Diver, Drift Diver, Dry Suit Diver, Equipment Specialist, Marine Ecosystems Awareness, Multi-level Diver, Night Diver, Underwater Navigation, Underwater Photography, or Wreck Diver.
